Education

University of Southern California — Los Angeles, CA
Bachelor of Science in Computer Science (Games) — Expected: May 2029
GPA: 3.82
Relevant Coursework: Object-Oriented Programming, Data Structures, Intermediate Game Design and Production, User Research for Games

Foothill Community College — Palo Alto, CA
Associate of Science in Computer Science — June 2025
GPA: 3.77
Relevant Coursework: Object-Oriented Programming in C++, Intermediate Software Design in C++, Advanced Data Structures & Algorithms in C++

Experience

MGK Studio — Remote
UI Programmer Intern (Part-time) — June 2026 - Aug 2026
Sledge Hammer Bride | Unity, C#

- Built the game's UI system from scratch, implementing all core screens including main menu, pause menu, character selection, victory/defeat screens, and credits
- Developed a settings menu with display, audio, and control options
- Implemented full input support for both gamepad and keyboard & mouse, enabling seamless menu navigation with either input method
- Designed responsive UI layouts that scale correctly across different screen resolutions and aspect ratios
- Worked with a remote cross-functional team to deliver testable builds

University Projects

The Pharaoh's Heart | Unity, C# — Jan 2026 - May 2026
3D first-person horror game | 4-person team

- Implemented player movement system using Unity Character Controller
- Created enemy AI chase behavior using C# and Unity NavMesh
- Designed and developed a hiding mechanic to enhance gameplay tension
- Built a vision-limiting torch mechanic and a torch-based puzzle

Additional

Languages: Korean (Native), English (Fluent)
Technical Skills:

- Programming Languages: C++, C#
- Game Engines: Godot, Unity
- Tools: Git, Perforce, Visual Studio, Jira, Unity Version Control

Interests/Hobbies: Percussion, Basketball, Soccer, Fitness
